FEES AND PAYMENTS

We make every effort to keep down the cost of our dental care. you can help by paying upon completion of each visit. Please remember that insurance is considered a method of reimbursing the patient for fees paid to the doctor and is not a substitute for payment. It is your responsibility to pay any deductible and co-insurance or any other balance not paid by your insurance company.

If I do not pay the entire balance within 25 days of the monthly billing date, a service charge will be added to the account for the current monthly billing period. The service charge will be periodic rate of 1.5% per month (or a minimum charge of \$3.00 for a balance under \$200.00) which is an annual percentage rate of 18% applied to that last month's balance. In the case of default of payment, I promise to pay any legal interest to the balance due, together with an collection costs, attorney's fees, and court incurred to effect collection of this account or future outstanding accounts.

AUTHORIZATIONS

I hereby authorize directly to the Dental Office of the group insurance benefits otherwise payable to me. I understand that I Am responsible for all costs of the dental treatment. I hereby authorize the Dental Office to administer such medications and perform such diagnostic and therapeutic procedures as may be necessary for proper dental care. The information on this page and the dental/medical histories are correct to the best of my knowledge. I grant the right to my dentist to release my dental/medical histories and other information about my dental treatment to third party payers and/or health professional.

Thank you for choosing our office for your dental care. We will work with you to help you achieve excellent oral health. While recognizing the benefits of a pleasing smile and teeth that function well, you should be aware that dental treatment, like treatment of any other part of the body, has some inherent risks. These are seldom great enough to offset the benefits of treatment, but should be considered when making treatment choices.

Benefits of dental treatment can include: relief of pain, the ability to chew properly, and the confidence and social interaction that a pleasing smile can bring. Nonetheless, there are some common risks associated with virtually any dental procedure, including:

1. **Drug or chemical reaction.** Dental materials and medications may trigger allergic or sensitivity reactions.
2. **Long-term numbness (paresthesia).** Local anesthesia, or its administration, while almost always adequate to allow comfortable care, can result in transient, or in rare instances, permanent numbness.
3. **Muscle or joint tenderness.** Holding one's mouth open can result in muscle or jaw joint tenderness, or in a predisposed patient, precipitate a TMJ disorder.
4. **Sensitivity in teeth or gums, infection, or bleeding.**
5. **Swallowing or inhaling small objects.**

While we follow procedural guidelines which most often lead to a clinical success, just like in any other pursuit in health care, not everything turns out the way it is planned. We will do our best to assure that it does. Please feel free to ask questions in regard to all dental procedures that are recommended to you.

I have read and understand the statement on this page.
